

S P A ALILA

S P A **ALILA**

At the juncture of beach and bluff in one of the most bio-diverse regions of North America, Spa Alila at Alila Marea is a sanctuary deeply rooted in both land and sea. The area's abundance of indigenous gifts, such as minerals and botanicals used by the native Kumeyaay people, merge with the landscape's powerful unseen energies in treatments that restore your connection to the earth, and relinquish all that no longer serves you.

No matter the service, our skilled team will guide you with a whole wellness approach that will leave you feeling aligned with both your inner nature and the natural world.

FACIALS

Emerge from our facial rituals renewed by the healing splendor of coastal California. Ground by hand with our signature Spa Alila milling stones, each ingredient surrenders its restorative bounty. All facials feature gua sha, which applies light pressure using a flat obsidian stone like those once coveted by the native Kumeyaay people. Gua sha relieves tension in the muscles of the face, boosts blood circulation, and encourages lymphatic drainage, resulting in skin that looks smoother and more lifted.

NATURE

Essential nourishment for all skin types

This fundamental facial speaks to the genesis and deep roots of the natural world with a double cleanse, custom exfoliation created with mortar and pestle, facial massage using gua sha tools, mask, hand and arm massage, and serum application. Powerful, antioxidant-rich chia seeds and white tea soothe the nervous system, improve skin health and reduce inflammation. Beetroot, which is high in vitamins and minerals, helps reduce blemishes, pigmentation, and eliminates toxins, while licorice extract brightens the skin, soothes and moisturizes.

Amplifying those ingredients and effects, sea lavender protects against photoaging by moisturizing and softening the skin, and wakame seaweed improves skin elasticity, plus reduces collagen breakdown and redness.

MASSAGES

Inspired by the soothing rhythm of the sea and the native people who first lived here on its shores, our massage and energy therapies wash away the tensions of both body and mind. As in ancient Kumeyaay practices, healing indigenous herbs including arnica, eucalyptus, dwarf pine and lavender are gathered into warm poultices and oils, simultaneously easing pain and enlivening the spirit when applied to the skin. Other natural tools, such as Himalayan salt, obsidian gua sha and basalt sea stones, permeate even the innermost layers of muscles while the transcendental vibrations of Tibetan sound bowls and focused energy work unburden the depths of the soul.

TALISMAN

Herbal poultice and hot oil Swedish massage

Our signature experience combines the curative power of local herbs and massage oils steeped in warming poultices. Once lymphatic gua sha work has readied the skin for the massage, the therapist applies pressure to the poultice and massage oil gently seeps onto the skin. Next, a Swedish-style massage invigorates and strengthens, while releasing tension and creating balance between the muscles. Lemongrass relaxes the nervous system, tones and tightens, and helps detoxify. Yerba mansa has antibacterial properties and soothes inflammation, while complementary chaparral leaf is a potent antioxidant protecting against cell damage. Avocado, full of nutritive and therapeutic components such as vitamins A, C, D, and E, is ultra-moisturizing and helps reduce age spots.

Clove's warming properties relieve fatigue, as well as the uplifting scent of eucalyptus, which eases joints through anti-viral action.
