Pure Inspiration

Spa Alila believes in all things natural, whether it be the Alila Living products or organic spa ingredients that complement our treatment range.

Our carrier massage oils are a pure blend of virgin coconut, sweet almond, kukui nut and wheat germ oils, rich in healing, nutritive and aromatherapeutic qualities.

Virgin coconut oil is a truly unrefined coconut oil which we source from villages in East Bali, where fresh coconut is shredded then cold-pressed to make coconut milk, fermented then separated and filtered. Virgin coconut oil has a much longer shelf life than most other carrier oils due to its natural antioxidant properties and is best applied directly to the skin for moisturising and conditioning.

Sweet almond oil is an excellent scent-free carrier oil for aromatherapy essential oils and is also remedial in the treatment of itching, inflammation and dryness. Rich in minerals and antioxidants, with proteins and vitamins D and E, sweet almond oil is often referred to in naturopathy as the queen of all carrier oils.

Mother-to-be and nut-free oils are also available at Spa Alila.

Massage

At Spa Alila, we draw on the benefits of a range of Asian and European massage techniques which can be tailored to your personal wellness needs. Allow our spa hosts to help you select the appropriate massage therapy and products to suit your condition.

Reflexology

Reflexology is based on the principle that energy flows freely around the body when we are in good health and that there are reflex areas on the feet that correspond to every part of the body, including major organs. Sit back and relax as your therapist applies varying degrees of pressure to specific points on the feet with thumb and fingers to unblock energy flow and promote the body's natural healing from within.
