

Villa Idanna

The House on The Hill

Introduction

Villa Idanna is set on a promontory overlooking the spellbinding landscape of Sidemen Valley with its rice terraces and forested hills leading up the sacred volcano Gunung Agung.

Location

Elevated at 1,000 feet, Villa Idanna lies within the ancient regency of Karangasem, in the village of Sidemen. It's only 45 minutes from Alila Manggis and well sited to explore the unspoiled East Bali. Travelling via the new Professor Ida Bagus Mantra road, Villa Idanna is just 1 hour and 30 minutes' drive from Bali International Airport.

Sidemen Valley has always held profound significance for the Balinese. Over centuries, it has been the all-important pilgrimage route during Besakih ceremonies and contains the highest number of pedandas or Brahman high priests per capita in Bali. Because of its sophisticated, traditional irrigation system—managed by the subak village water councils—the area is being considered as a UNESCO World Heritage Cultural Landscape along with the first two proposed model subak systems in Jatiluwih and Tampaksiring.

Accommodation

Two large bedrooms with en-suite bathrooms and one kids' room (two king beds and two single beds with three showers) all lie under one roof with spacious al-fresco seating areas and a well appointed library. There is no TV to disturb the peace but wireless modem is provided for data connectivity. A rare setting for total rejuvenation of body and soul, and for seeking solace with nature.
